Item specifics

Brand Name: OOTDTY

DIY Supplies: Electrical

Display Type: Analog Only

Accuracy Class: see information

Operating Temperature: see information

Dimensions: see information

Model Number: 9A30072

Power Supply: DC

Product Description

Descriptions:

This module is used on security products, stability is fairly good.

Product test pattern:

Please refer to the main map, new products output are generally stable, of course, if you test the output voltage is unstable, you can add a limiting current resistor for testing, usually this problem does not occur.

When you're adjusting the output, it is recommended to join the rectifier resistance.

Specifications:

Output current: 1~20mA.(If you want to add current, pls put insurance below the transformer replaced the 0-ohm resistor, maximum 50mA, but does not recommend increased.)

Output Power: 5 W

Input Voltage: DC 5V-12V

Output Voltage: 280V-1200V

When the input voltage is 5V, the output voltage can be adjusted in 300~1200V

When the input voltage is 6~12V, the output voltage can be adjusted in 400~1200V

Size: 6.4x3.1cm/2.52x1.22"

Quantity: 1 Pcs

Note:

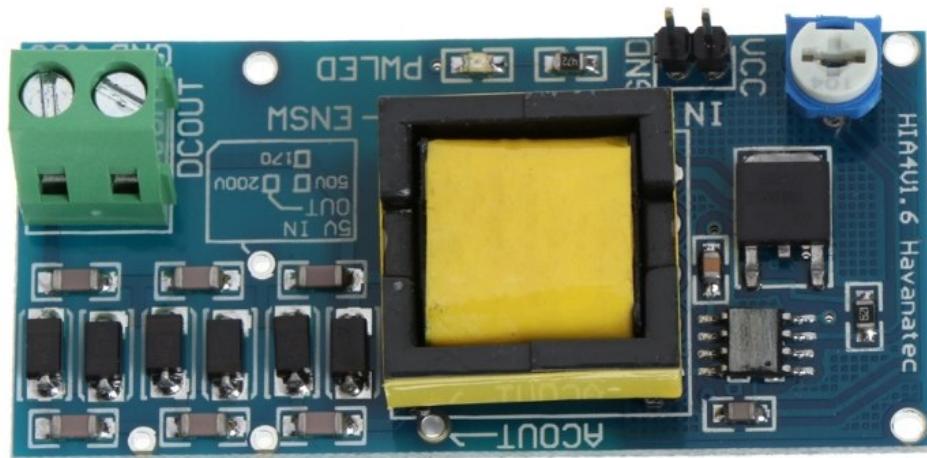

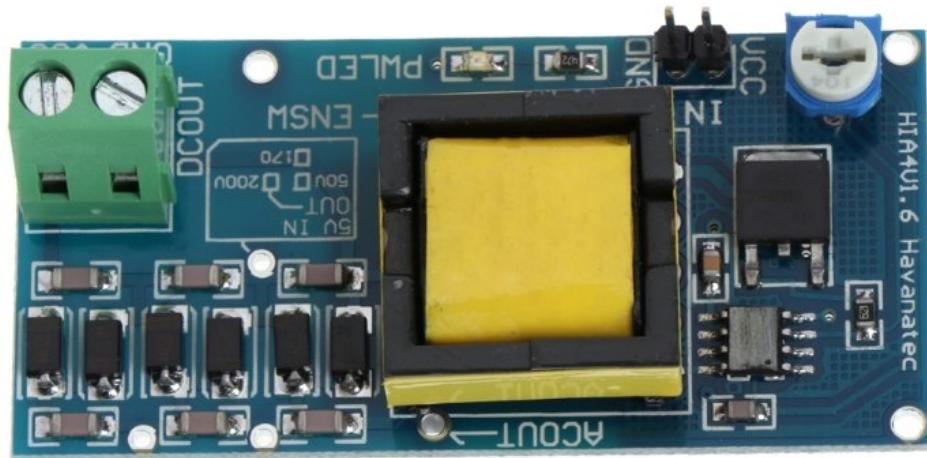

Please allow 1-3mm error due to manual measurement.pls make sure you do not mind before you bid

Due to the difference between different monitors, the picture may not reflect the actual color of the item.Thank you!

Package Contents:

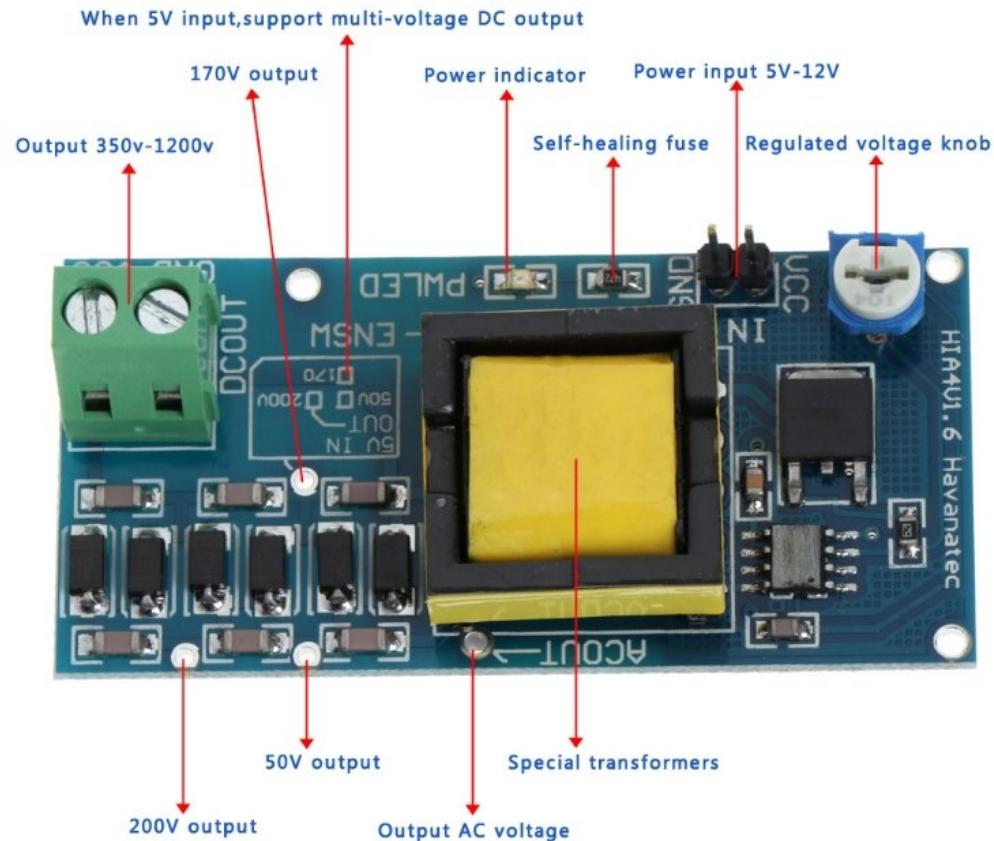

1 x High Voltage DC-DC Boost Converter(Without Retail Package)
